

LAFAYETTE PATHWAY PROJECT

The City is partnered with EBMUD, Caltrans, East Bay Regional Park District, and BART to determine if pedestrian and bicycle improvements are feasible and desirable in the Lafayette Aqueduct right-of-way. A Caltrans Community Planning Grant is providing funding for this study for a pathway along a corridor which parallels Mt. Diablo Boulevard in the Downtown between Risa Road and Brown Avenue.

Upcoming events:

May 7, 2011: Community Site Walk

May 11, 2011: Community Workshop #2

Visit the study's website www.lafayettepathway.com to learn more about the study and these upcoming events, to submit comments, or to sign up for future emails.
